

NOW!
Nicht Ohne das Wir

**Self-advocacy group of
Refugees with disabilities**

Join us!

**Our group is welcoming gladly
new active members.**

Are you a refugee with a disability or a care giver to a family member with disability and living in Germany? Then we are happy to meet you and invite you to join our group. Your voice will be heard and your experience will be valued.

**Let's work together to create
an inclusive future for all!**

WHO WE ARE AND WHAT WE ARE COMMITTED TO?

We are a self-advocacy group of refugees with disabilities and their relatives. Self-advocacy means: We represent our interests ourselves. We stand up for our rights vis-à-vis politics, administration and society. We have a common goal: **We want to improve the living situation of refugees with disabilities and their relatives in Germany.**

We come from different countries, speak different languages, have individual life biographies and have very different skills, knowledge and experience. **We are diverse. And our diversity makes us strong!**

HOW DO WE ADVOCATE OUR INTERESTS?

- We live in different cities in Germany. Therefore, our monthly group meetings take place online via Zoom. We meet in person at least once a year in Berlin. At our meetings, we talk about topics that are important to us. We plan activities and invite experts on different topics.
- We meet with politicians. During the talks, we defend our rights and interests.
- We support Handicap International e.V. in developing multilingual information materials to help other refugees with disability through sharing our experiences and knowledge.
- We exchange ideas with other groups, associations and organizations to learn from each other.
- We participate in trainings in order to further expand our knowledge in the field of refuge and disability and to be able to demand our rights even better.

Are you interested in getting to know us and finding out more about our group?
