Target Audience

The training primarily targets headquarter programme and project staff of German NGOs working in the humanitarian sector who have already gained basic knowledge on disability inclusive humanitarian action.

Objective

The objective of the training is to increase the understanding of meaningful participation of persons with disabilities with a specific attention towards the engagement with organisations of persons with disabilities (OPDs) and how to improve the exchange between OPDs and mainstreaming humanitarian actors.

Methodology

The training will include an online self-learning exercise of around 90 minutes to be conducted between 17th and 22nd of June. The online sessions (2 x 2,5 hours) will include a mix of input presentations, group and scenario working sessions, plenary discussions and the option for individual advisory sessions. Persons with disabilities will be actively engaged as facilitators and guest speakers in the online sessions.
