

PHASE 3

Leave no one behind!

Introduction to disability-inclusive humanitarian action: **How to make the IASC Guidelines on Disability-Inclusion work for your programming**

Please note, this training has been **postponed to 27.-29. March 2023**.

In-Person Training:

- 27.03.2023-29.03.2023 (3 full days)
- Berlin, Germany (Venue, TBA)
- Language: English
- Free of charge

Target Group: German-based humanitarian actors and their (local) offices and partners, especially staff members at humanitarian programmatic and technical level. For example, managers, coordinators and technical specialists or officers.

Objective

The objective of the training is to introduce the human rights based approach to disability and to deepen the understanding of disability-inclusive humanitarian action in-line with the IASC Guidelines on Inclusion of Persons with Disabilities in Humanitarian Action. The participants will have a better understanding of how to mainstream disability as a cross-cutting issue throughout the humanitarian project cycle (assessment, design, monitoring, evaluation and accountability to affected population mechanisms) and will be able to identify possible entry points for change in their programmes.

Methodology

The three days in-person training will include a mix of input presentations, scenario work and discussions, lab-style sessions, guest speaker inputs and Q&A's. Invitees will have a chance during the workshop to work on revisions of their own tools and guidance.

Application

Applications are open until March 1, 2023.

Successful applicants are selected based on pre-defined criteria and will be informed after the application deadline.
